

Whitechapel station 2017 works update

Crossrail will continue the programme of station upgrade activity in Whitechapel during 2017.

We will continue to focus on steel installation above the London Overground and London Underground tracks, which run through the station. Cladding activity, remodelling of the former station entrance on Whitechapel Road will be ongoing prior to reopening, which will take place by December 2018.

General site activity in the station area is carried out between 08:00 and 18:00 daily. Lower impact activity is carried out between 18:00 and 00:30 with activities adjacent to the railway taking place between 00:30 and 05:30.

A crane will be positioned in the site area within Kempton Court throughout the year, it will be used to lift material above the railway track and into the station area.

A crane will also be positioned in the site compound opposite Whitechapel Sports centre. This will be used to assist with site operations intermittently throughout the year.

Further details of these activities can be found on the map on the next page.

Duration of work

- Ongoing upgrade activity in Whitechapel Station throughout 2017
- General site activity in this area is carried out between 08:00 and 18:00 daily
- Lower impact activity is carried out between 18:00 and 00:30
- Activities adjacent to the railway take place between 00:30 and 05:30

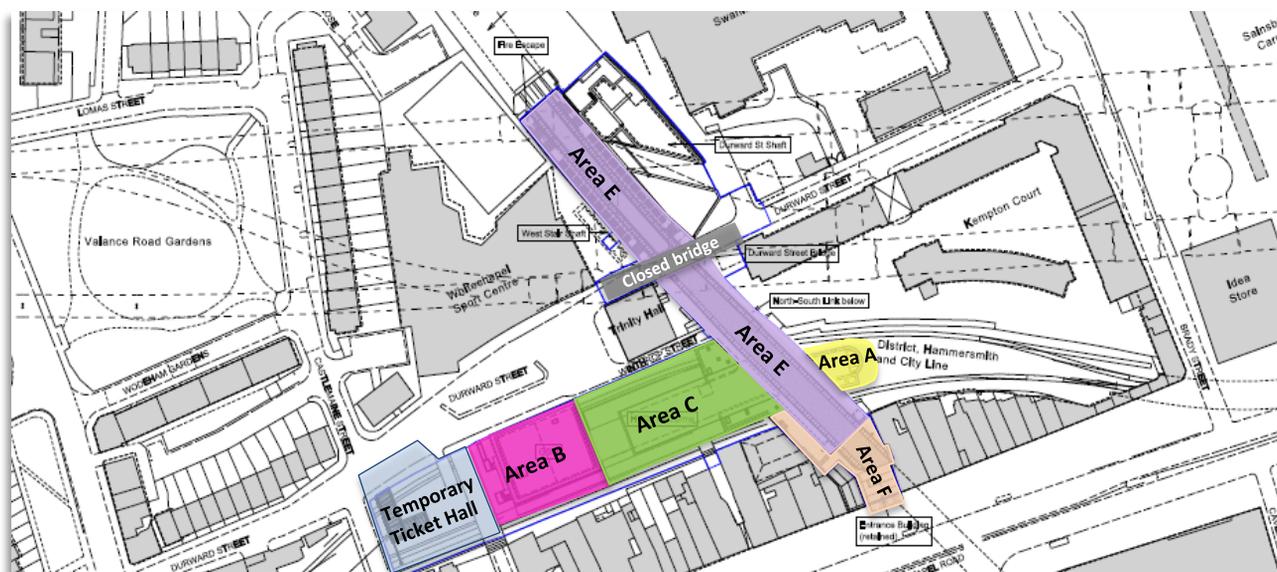

What to expect

- Ongoing site upgrade activity in the vicinity of Whitechapel station
- A crane in the site area within Kempton Court
- A crane in the site compound opposite Whitechapel Sports Centre

What we will do

- Monitor noise and dust and work in accordance with our consents as agreed with the London Borough of Tower Hamlets

Continued overleaf...

Area A	The majority of cladding activity was completed in 2016. We will largely focus on fit-out activity inside the small shaft in 2017. A large portion of this activity will take place at night.
Area B	We will be installing staircases, steelwork and cladding at this location. We will also be constructing the floors, walls and ceiling of the station building. The scaffold structure will be removed and the permanent roof structure will also be installed.
Area C	We will continue to complete the station building in this area. This will include the construction of utility services such as drainage networks and service routes. These works will entail the use of concrete pumps and lorries which will be based in the Durward Street site compound. We will be installing steel beams above the London Underground platforms, intermittently across several nights throughout January and February. We will also start installing the canopy cladding system as well as platform fit-out works. The tower crane currently situated within the LU platforms area will be removed in early spring 2017. You will receive separate details of this work closer to the time.
Area E	We will be completing the steelwork and installing staircases in this area. There will be an increased programme of night time steelwork in the northern section of Area E in the first quarter of 2017. Concourse roof works in this area will include concrete pours, cladding and glazing, before internal fit-out starts to take place later in the year. Platform extensions will take place to the London Overground platforms, along with concourse floor finishes and installation of cable routes.
Area F	The refurbishment of the former station entrance area will continue. This will include completion of the steel canopy, concrete pours, construction of block walls and plant rooms, and the architectural fit out of the new station entrance.

...continued from overleaf

About Crossrail - Crossrail is Europe's largest infrastructure project, delivering a new railway for London and the South East. When the service opens, the new railway will be known as the Elizabeth line. Trains will travel from Reading and Heathrow in the west to Shenfield and Abbey Wood in the east via new twin tunnels under central London. Linking Heathrow Airport, the West End, the City of London and Canary Wharf it will change the way people travel around London and the South East and add much needed new capacity to London's transport infrastructure.

Whitechapel and Stepney Green Community Liaison Panel

Crossrail runs a community liaison panel for each central London station to keep local community representatives informed of progress and plans. If you would like further information please contact crossrailiaisonpanels@crossrail.co.uk
